

Dr. Nadia Abdelhamid Mohammed Ahmed
Clinical Pathologist (Medical Laboratory Doctor)

Egypt | nadiaabdelhamed2020@gmail.com

Personal Statement

I am a specialist in Clinical Pathology, experienced in the diagnosis of blood disorders and hematologic malignancies. I have a strong ability to manage challenges and solve problems effectively, with excellent communication and organizational skills. I am seeking a position where I can contribute my knowledge, laboratory expertise, and leadership qualities to enhance patient care and diagnostic accuracy.

Professional Experience

Specialist, Clinical Pathology Department – Qena University Hospital, Egypt (Present)

- Diagnosis and interpretation of laboratory findings in hematology, biochemistry, and microbiology.
- Participated in quality control and laboratory management activities.

Resident Doctor, Clinical Pathology Department – Qena University Hospital, Egypt (2020 – 2023)

- Performed and analyzed hematology, biochemistry, and microbiology investigations.
- Assisted in bone marrow examination and hematologic malignancy diagnosis.
- Contributed to laboratory workflow and teamwork in multidisciplinary units.

Education

Master's Degree in Clinical Pathology – South Valley University, Egypt

Bachelor of Medicine and Surgery (M.B.B.Ch.) – South Valley University, Egypt (2020)
